RECENT EXPERIENCES

Sully.ai ↗　　　　　　　　　　　　　　　　　　　　　*March 2024 - Present*
Contractor, Senior Full-stack Engineer (India)

· Maintained a robust track record of successful project outcomes, closely collaborating with the **Chief Technology Officer (CTO)** to ensure alignment with strategic goals.
· Contributed to strategic engineering decisions by **serving on the engineering advisory board**, offering insights into optimal tech stack and tool selection for production environments.
· Played a pivotal role in **enhancing core features**, refining user experience, & boosting application **performance**. Led transition to **Typescript**, enhancing code quality & mitigating potential risks.
· **Implemented automated testing and error tracking** for the production application, ensuring compliance with HIPAA regulations and bolstering data security measures.

Tech stack: TypeScript, Node.js, React, Next.js, Python, Lang Chain, Tailwind CSS, Docker, Postgres SQL, Firebase, CI/CD pipeline, Git, Open AI, Google Cloud (GCP).

CloudFiles ↗　　　　　　　　　　　　　　*January 2022 - February 2024*
Senior Product Engineer, Member of the founding team (Bengaluru)
Product Engineer (*January - December 2022*)

· **Managed end-to-end enterprise product development** and planning in a fast-paced environment.
· **Led the creation** of a secure file-sharing and analytics platform with integration capabilities.
· Developed **page-by-page analytics & content automation for Hubspot and Salesforce** CRMs.
· Implemented integrations with prominent cloud storage providers & in-house CloudFiles storage engine.
· Developed & contributed to **Doc-GPT**, an **AI-powered** solution that facilitates seamless customer interactions through chat, allowing them to inquire and obtain instant answers about files. It helps users with document summarization, significantly **cutting average reading time by nearly 70%**.

Tech stack: TypeScript, Node.js, Next.js, LWC, Serverless, Redis, Nginx, MongoDB, CSS Frameworks (TailwindCSS, Chakra-UI), NX build system, CI/CD pipeline, Git, Amazon Web Services (AWS).

EDUCATION

University of Mumbai
Bachelor of Information Technology (CGPA: 8.81/10)

Vivekanand Education Society's Polytechnic
Diploma in Computer Technology (Percentage: 85%)

TECHNICAL STRENGTHS

Programming languages (Worked on)	Typescript, Javascript, Java, PHP.
Frameworks (Worked on)	React.js, Next.js, Node (Express.js), Spring Boot, Laravel.
Miscellaneous	SQL, REST API, Microservices, GraphQL, Linux, Docker.
Databases & Deployment Platforms	MySQL, Postgres, Redis, MongoDB, Google Cloud, AWS.
External Tools and Platforms	Open AI, Lang Chain, Cloudflare, Salesforce, Hubspot.
Design and wireframing tools	Figma, Draw.io, Balsamiq Mockups.
